PROFESSIONAL SUMMARY

Aspiring Generative AI Engineer with a strong foundation in Data Science and AI-driven solution development. Passionate about solving real-world business problems through AI integration, advanced analytics, and intelligent automation. Experienced in applying machine learning, deep learning, and modern AI system.

EDUCATION

Bachelor of Bio Artificial Intelligence
Kafr El-Sheikh University, Egypt
Expected Graduation: June 2027

CERTIFICATIONS

- **OpenAI Neural Networks and Deep Learning — Jul 2025**
- **NVIDIA Getting Started with Deep Learning — Aug 2025**
- **IBM Data Analysis with Python — Sep 2025**
- **Microsoft Power BI Data Analyst Professional Certificate — Oct 2025**
- **THARAA Data Analysis — Oct 2025**
- **IBM Machine Learning with Python & Scikit-learn Professional Certificate — Oct 31, 2025**
- **Microsoft SQL Server Professional Certificate — Nov 13, 2025**
- **AI for All: From Basics to GenAI Practice — Nov 2025**
- **ITI Generative AI Level 1 — Dec 2025**
- **Introduction to Deep Learning — Jan 2026**
- **NVIDIA Building RAG Agents with LLMs — Feb 2026**
- **OpenAI Deep Learning — Feb 2026**

PROJECTS

- **Data Analysis & Visualization with Power BI:** Developed interactive dashboards using slicers, KPIs, and DAX to generate actionable insights for business decision-making.
- **Machine Learning Models in Python:** Implemented, trained, and evaluated predictive models using **scikit-learn** and Python on real-world datasets.
- **Deep Learning:** Built neural network models for image-based tasks such as classification and feature extraction using deep learning frameworks.
- **Computer Vision:** Implemented and optimized deep learning–based computer vision models for image classification, object detection, and face recognition using CNNs, OpenCV, and transfer learning on real-world image datasets.
- **End-to-End Solutions:** Built end-to-end Generative AI pipelines involving data ingestion, embedding generation, prompt engineering, LLM integration, and response evaluation to create intelligent, insight-driven applications.

PROFESSIONAL EXPERIENCE & TRAINING

Hex Softwares Pvt. Ltd. – Data Science Intern
Jan 2026 – Feb 2026

- **Applied data science and machine learning techniques to real-world datasets.**
- **Performed data cleaning, EDA, feature engineering, and model development using Python.**
- **Developed practical experience in end-to-end data science project execution.**

NTI – Big Data Analysis Trainee
Jul 27 – Aug 21, 2025 | 120 Hours (90 Technical + 30 Freelancing)

- **Completed an intensive 120-hour Big Data Analysis training, achieving a 97.5% overall score.**
- **Gained hands-on experience in data processing, analysis of large datasets, and analytics workflows.**
- **Applied analytical techniques to real-world datasets and developed practical solutions for data-driven problems.**
- **Learned freelancing fundamentals, including project delivery, client communication, and professional practices.**

COMPETITIONS

- **DIGITOPIA National AI & Data Analytics Competition:** Participated in a nationwide competition, applying AI and data analytics skills to real-world challenges.

TECHNICAL SKILLS

- **Programming & Data:** Python, SQL, Machine Learning
- **Business Intelligence:** Power BI, Excel (Pivot tables, Power Query)
- **Data Science:** Deep Learning, Computer Vision, NLP
- **GenAI & Agentic:** LLM's ,RAGs , Prompt Engineering

SOFT SKILLS

- Problem-Solving & Critical Thinking
- Analytical Mindset
- Communication & Data Storytelling
- Time Management & Organization
- Teamwork & Collaboration
- Adaptability & Continuous Learning
- Presentation & Reporting Skills
- Attention to Detail

LANGUAGES

- **Arabic:** Native
- **English :** Fluent
